La Compagnie

Winther Browne & Co Limited fut fondée en 1893 se spécialisant dès le début dans la distribution de produits en bois.

Cette brochure illustre une gamme de moulures et d'ornements exclusive à Winther Browne. Celle-ci comprend une sélection de produits décoratifs fabriqués industriellement ou sculptés à la main provenant de tous les coins du monde.

Nos autres produits

Entourages de cheminées, cache-radiateurs, cloisons décoratives, et parties d'escalier. Les moulures "FYPON" fabriquées en polymère sont particulièrement recommandées pour un usage décoratif extérieur. Elles ne demandent aucun entretien.

Produits non-standards

Nous offrons également un service de commandes "sur commande". Ceci concerne les moulures, les articles sculptés, les tournages que nous fabriquons selon vos propres spécifications.

Les Bois

Tous nos bois sont séchés à l'étuve et sont tous des bois durs, à l'exception du pin.

Le Pin (Pine) - Pin scandinave de première qualité (grade 1 de Suède). Certains noeuds vivants dans les articles de grande taille.

Le Chêne (Oak) - Chêne d'Amérique blanc. Bois extrêmement dur et au grain riche.

Le Hêtre (Beech) - Hêtre d'Europe, bois traditionnel de couleur claire.

Le Tilleul (Lime) - Un bois léger de couleur claire qui se prête particulièrement à la sculpture sur bois.

Le Tilleul Rose (Red Basswood) - Un bois rose dur.

Blanc (White)

Medium avec revêtement papier blanc satiné.

Procédés de fabrication

Les articles précédés par des initiales sont moulés et gravés. Les articles sans initiales sont moulés seulement.

HC - Articles gravés ou sculptés à la main qui offrent un relief plus précis et plus profond que ceux de la catégorie PF.

PF - Articles mis en forme à l'aide de moules chauffés. NE DOIVENT PAS ETRE UTILISES A L'EXTERIEUR.

Moulures de Panneau	19
Moulures sculptées à la main	12/13
Ovest et Dards	18
Pendants	26/27
Plinthes	5
Rosettes	25
Rubans	17

MC - Articles gravés à la machine qui offrent un relief plus régulier et plus profond que ceux de la catégorie EM. **EM** - Moulures estampées (gravées en relief) à l'aide d'un rouleau très chaud.

La Pose

Les moulures lourdes peuvent être percées puis vissées ou encore fixées au mur à l'aide de mastic. Les moulures légères peuvent être collées puis fixées à l'aide de pointes d'acier ou simplement collées.

La Finition

Tous nos produits sont fournis à l'état brut et doivent être passés au papier de verre avant la finition. **NE PAS UTILISER DE PEINTURE A BASE D'EAU POUR LA FINITION DES ARTICLES "PF" MIS EN FORME A L'AIDE DE MOULES ECHAUFFES.** Les moulures ou ornements de bois ayant été traités à la chaleur absorbent très peu de peinture et il est donc nécessaire de la diluer.

Les Dimensions

Toutes les mesures données sont approximatives. Les dimensions sont en mètres et millimètres.

Les Moulures "Random"

Ces moulures ne peuvent pas être fournies en longueurs fixes.

Les Quantités

Nous indiquons dans notre brochure les produits vendus par boîte ou par paquet de 5, 10 ou 20 pièces. Pour les moulures vendues en longueurs "random", nous fournissons la quantité la plus proche de celle indiquée sur la commande.

Les Prix

Une liste de prix est disponible sur demande. Les prix s'entendent "Départ usine Londres". Les paiements peuvent être effectués par cartes bancaires internationales (Visa) ou par virement bancaire.

La disponibilité

Nous stockons tous les produits mentionnés dans cette brochure. Vérifiez la disponibilité du stock avec notre bureau de vente, particulièrement pour les commandes importantes ou fréquentes.

La livraison

Nous pouvons envoyer nos marchandises dans le monde entier. Les frais de livraison sont à la charge de l'acheteur.

Les échantillons

Disponibles sur demande.

HINTERGRUND

Winther Browne & Co. Limited wurde 1893 gegründet und hat sich schon immer auf bearbeitete Holzprodukte spezialisiert.

Die herausragende Palette an Holzprodukten von Winther Browne umfaßt eine Auswahl an dekorativen Bearbeitungen und Schnitzereien aus Großbritannien und der ganzen Welt.

Weitere Produkte:

Weitere Produkte, die sich am Lager befinden, sind Kaminverkleidungen, Heizkörperverkleidungen, Abdeckpaneele.

Sonderanfertigungen:

Unsere "Spezialabteilung" bietet einen besonderen Service bei der Anfertigung von Schnitzereien, gedrechselter und anderweitig bearbeiteter Holzprodukte.

Holz:

Alle verwendeten Hölzer sind künstlich getrocknet, und mit Ausnahme von Kiefernholz handelt es sich nur um Harthölzer.

Kiefer Schwedische Rotkiefer, 1. Wahl beste Qualität, ausgesuchtes Holz. Auf größeren Flächen vereinzelte kleine Äste.

Eiche Amerikanische Roteiche. Kräftige Maserung, sehr hart.

Buche Europäische Buche. Ein konventionelles helles Hartholz.

Linde Erfahrungsgemäß eines der besten Hölzer für Schnitzereiarbeiten. Helle Farbe, geringes Gewicht.

Rot Linde Rötlich gradfaserig und dicht, aus Wäldern der gemäßigten Klimazone in der nördlichen Hemisphäre.

Weiß Folienbelegtes MDF, FSC zertifiziert, gebrauchsfertig zur problemlosen Montage.

Bearbeitungsformen

Reine Prägeteile, werden nicht besonders gekennzeichnet.

Relieftiefe und Konturentreue als bei EM-Produkten.

PF Druckformung Massivholz, in Formen heißgepreßt. NICHT GEEIGNET für den Außeneinsatz. **EM** NICHT GEEIGNET für den Außeneinsatz.

Befestigung

Schwerere Formteile können gebohrt, geschraubt oder mit Leim befestigt werden. Leichtere Formteile können genagelt und geleimt oder nur geleimt werden.

Endbearbeitung

Sämtliche Teile werden im Rohzustand geliefert. **NIEMALS BEIZEN AUF WASSERBASIS FÜR DRUCKGEFORMTE ORNAMENTE VERWENDEN.** Geprägtes Holz nimmt nur wenig Beize auf. Darum ist es wichtig Beizen und Lacke zu verdünnen.

Größen

Alle Größenangaben sind Schätzwerte. Die angeführten Maße sind circa Maße und unverbindlich.

Fallende Längen

Hölzer, die in fallenden Längen verkauft werden, können nicht in speziell angefragten Längen geliefert werden.

Bestellumfang

Sie können aus unserem Katalog ersehen welche Artikel per Bündel oder Karton verkauft werden. Alle anderen Artikel werden lt. Bestellung geliefert.

Preise

Wir verfügen über eine Preisliste, die wir auf Wunsch zustellen.

Verfügbarkeit

Alle aufgeführten Artikel sind normalerweise lagernd. Bitte setzen Sie sich mit unserem Verkaufsbüro in Verbindung, insbesondere bei größeren Mengen oder Folgebestellungen.

Lieferung

Die Waren liegen zur Abholung im Werk bereit oder können verpackt und in jedes beliebige Land geliefert werden.

Muster

Die Bereitstellung von Mustern ist möglich.

BACKGROUND

Winther Browne & Co. Limited was founded in 1893 and has always specialised in machined wood products.

This distinctive range of wood products from Winther Browne comprises a selection of decorative machining and carving from the U.K. and around the world.

Other Products

Other stock products include Fire Surrounds, Screening Panels, and Radiator Cabinets.

Non-standard Items

Our "Specials" department offers a bespoke service for wood mouldings, carvings, turnings and machining.

Timber

All timbers used are kiln dried and all, except Pine, are hardwoods.

Pine - 1st Grade Swedish Redwood - the highest grade available and specially selected. Some live knots in larger sections.

Oak - American White Oak. Rich in grain and very hard. FSC certified.

Beech - European Beech. A traditional light coloured hardwood.

Lime - Traditionally one of the world's best woods for carving. Light in colour and weight.

Red Basswood - Very light red in colour, close grained from northern hemisphere temperate forests.

White - Foil wrapped FSC certified MDF, already finished for ease of installation.

Manufacturing Process

Items which are "moulded" (extruded) with no extra process have no initials marked.

HC Hand carved - individually carved with greater definition than PF products. Larger items are laminated and are not suitable for exterior use.

PF Pressure formed - solid wood that has been hot-pressed in moulds. **PF ARE NOT SUITABLE for exterior use.**

MC Machine carved - precisely and uniformly carved giving depth and definition greater than EM products.

EM Embossed. The design has been impressed on the surface of the moulding using a heated roller.

Fixing

Heavier mouldings may be drilled, screwed and plugged or fixed with a building grade mastic.

Lighter mouldings may be pinned and glued, or simply glued.

Finishing

All items are supplied in the raw state and should be lightly sanded before finishing. **FOR PRESSURE-FORMED ORNAMENTS DO NOT USE WATER-BASED PAINTS.** Hot-pressed (PF) wood absorbs very little paint so it is necessary to dilute it.

Sizes

All sizes are approximate. Dimensions are shown in millimetres and lengths in metres.

Random Lengths

Where items are sold in random lengths, there will be a fair spread of lengths in each bundle. We will not accept orders for specific lengths of random length products.

Order Quantities

Where items are sold in bundles or boxes, it is shown accordingly. Other items will be supplied as near to the required quantity as possible.

Prices

We publish a price list which will be supplied on request.

Availability

All items shown are normally in stock. Please check with our Sales Office - especially for large quantities or on-going requirements.

Delivery

Goods are available for collection ex-works or can be packed and shipped to any address.

Samples

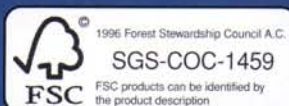

Samples are available.

Trade Counter

Customers can view our decorative mouldings range, order and collect at our Trade Counter at our offices in Bilton Way. Opening hours are 8.30am to 8.30pm, Monday to Friday.

Call **0845 612 1893** for details or visit

www.wintherbrowne.co.uk

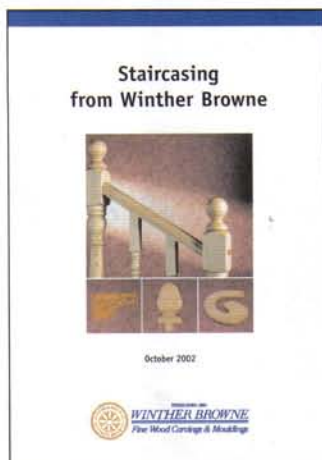

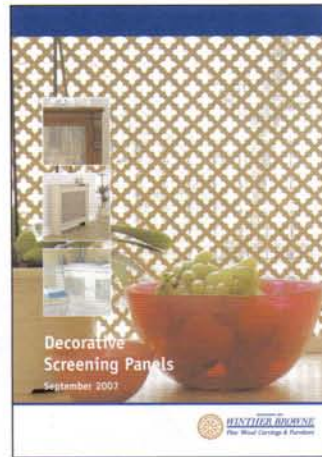

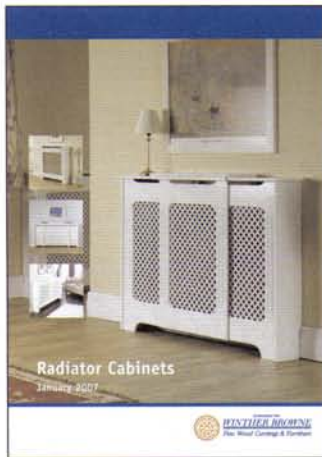

The Forest Stewardship Council (FSC) provides a system of ensuring timber is sourced from sustainable forests. The FSC logo allows consumers worldwide to recognise products that support the growth of responsible forest management. Products in this catalogue that are FSC certified can be identified by their product description.
